

Give their prescription a head start.

e-prescriptions

- Reduce pharmacy faxes and phone calls
- Streamline the refill authorization process
- Access patient medication history across providers
- Devote more time to patient care

Visit www.GetRxConnected.com to generate a customized **Guide to Selecting E-Prescribing Technology**. The guide includes listings of e-prescribing solutions that meet your stated needs, questions to ask the vendors as you begin evaluating solutions and an estimate of the time and money you are currently spending annually managing the refill authorization process. You can also request additional product demos directly from the site.
